INTRODUCTION AND GENERAL INDEX

R.L. POLK & CO., publishers of more than 1,300 City and Suburban Directories, presents to subscribers and the general public, this, the latest edition of the City Directory.

Confidence in the continued growth of the city's industry, population and wealth, and in the advancement of its civic and social activities, will be maintained as sections of this Directory are consulted.

The enviable position occupied by R.L. POLK & CO.'s Directories in the estimation of the public throughout the United States and Canada, has been established by rendering the best in Directory service. With an unrivaled organization and having had the courteous and hearty cooperation of the business and professional community and residents, the publishers feel that the result of their labors will meet with the approval of every user, and that the City Directory will fulfill its mission as a source of authentic information.

FOUR MAJOR DIRECTORIES

I. THE CLASSIFIED BUSINESS DIRECTORY is the first major directory, printed on yellow paper. This directory contains a complete listing of business and professional firms and organizations within our canvass area, arranged in alphabetical order under appropriate headings. Included are: officers, owners, principals, number of employees, address and telephone number. Also included are the advertisements and business cards of firms and individuals desiring to make a more detailed presentation of their products or services. This directory represents reference advertising at it's best and merits the attention of all buyers and sellers seeking sources of supply or a market for goods. In a busy and diversified community, the necessity of having this kind of information up-to-date and immediately available is obvious. The Directory is a common intermediary between buyer and seller and plays an important role in the daily activities of the commercial, industrial and professional world.

II. THE ALPHABETICAL DIRECTORY is the second major directory, printed on white paper. This directory intends to show the name, spouse's name, occupation, employer, address, designation of owner-occupied homes and telephone number of each adult resident. Also included is the name, official personnel, products and services, address and telephone number of business and professional firms in the city.

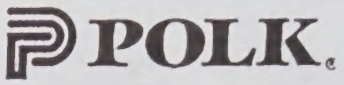

III. THE STREET ADDRESS DIRECTORY is the third major directory, printed on green paper. In this directory the numbered streets are arranged in numerical order, followed by the named streets in alphabetical order; the numbers of the residences and business firms are arranged in numerical order under the name of each street, and the names and spouses names of the householders, as well as the names of all adult residents are placed opposite the number. Business and professional firm names also appear at their appropriate numbers. The names of the intersecting streets appear at their respective crossing points on each street. Special features of this section are the designation of owner-occupied homes, telephone numbers, new householder symbols, the length of residence up to 9+ years, and zip/postal codes.

IV. THE NUMERICAL TELEPHONE DIRECTORY is the fourth major directory, printed on blue paper. This directory provides the name and address of the telephone subscriber when only a telephone number is known.

COMMUNITY PUBLICITY

The City Directory reflects the achievements and ambitions of the community, depicting in unbiased terms what it has to offer as a place of residence and as a business location.

The publishers appreciatively acknowledge those progressive business and professional firms who have demonstrated their confidence in the City Directory as an advertising medium, with assurance that it will bring a commensurate return.

Rest Homes-2.

General Review

Astoria and Clatsop County are rich in historic interest and importance. Early events occurring here had far reaching effects, eventually resulting in Oregon and the Pacific Northwest becoming a part of the United States instead of the possession of a foreign power.

Urged on by the desire to find a fabled "Northwest Passage" by water across the North American continent, Spanish and British explorers had sailed along the Oregon and Washington coastline, but the Columbia River was not discovered until 1792, when Captain Robert Gray of Boston entered the river and named it after his ship, the "Columbia".

In 1804, President Jefferson appointed Captains Meriweather Lewis and William Clark to head an expedition across the western plains and mountains to the Pacific Ocean. Lewis and Clark explored the Lower Columbia region and spent the winter of 1805-1806 at Fort Clatsop, near Astoria.

Fort Clatsop, a national memorial park, the 1805-06 headquarters of Lewis & Clark near Astoria was rebuilt in its exact replica in 1955, and is one of the finest tourist attractions on the Pacific Coast today. Located on the exact site of the original fort, 3 miles east of Highway 101 between Astoria and Warrenton.

In 1810, John Jacob Astor of New York, organized the Pacific Fur Company to engage in the fur trade on the Columbia River. This company sent the ship "Tonquin" by sea and another party overland, the two to meet at the mouth of the Columbia River. The men in the "Tonquin" arrived at their destination in March, 1811, and built Fort Astoria, the first permanent American settlement on the Pacific Coast. After many hardships and loss of lives the overland party arrived in the winter of 1811. Due to the War of 1812 and the loss of relief ships, the fort passed into the possession of the British, but was restored to the American flag in 1818.

Astoria, today, is a modern city of about approximately 10,500 population, the commercial, financial and shipping center of the Lower Columbia River district of Northwestern Oregon and Southwestern Washington. Most of the Astoria business district was rebuilt following a disastrous fire in 1922 and its stores and office buildings are a credit to a city of its size.

Ocean liners load for worldwide ports at the larger waterfront dock. Astoria Bridge (4.1 mile-long bridge crosses mouth of Columbia) across the Columbia River connects the highway system of Oregon and Washington.

Astoria's hotels, restaurants, garages and a modern retail shopping district furnish a complete service to the traveling public.

Basic Industrial Resources

Astoria is the headquarters of the Columbia River fishing industry. Plants located in or near Astoria with a value of $9 million commercial buildings process salmon, crab, bottomfish and shrimp.

Astoria and the surrounding area's economic base relies heavily on its natural resources. The basic industries are forestry and forest products commercial fishing, and tourism followed by shipping agriculture and government.

Timber, several varieties, all growing to immense size, forms the basin of a large logging and lumbering industry in Clatsop County. Fir, hemlock, spruce and cedar grow thickly on the slopes of the Coastal Range. The logs are hauled by motor truck to tidal streams, then towed to Columbia River sawmills. There they are made into every kind of lumber or converted to other wood products, such as veneer, plywood, shingles, pulp and paper, eventually going to markets all over the world.

Logs and some containorized cargo are shipped through the deepwater port of Astoria.

Astoria is Clatsop County's trade and service center and serves as the regional governmental center with the Clatsop County Courthouse, Clatsop Community College and regional State and Federal offices.

Agriculture-highly specialized, producing top quality, high value crops-is concentrated mostly along the Columbia River and its Tributaries and in coastal river valleys. The principal dairy farms are stocked with herds of high producing agricultural activity. Dairying and beef cattle are favored by a long period of green pasture, large yields of root and forage crops.

Agriculture is a small component of the county's economy.

Activities include dairying, mink ranching, cattle and raising of horticulture crops and specialty products such as cranberries.

Climate

The geographical location of Astoria produces a mild equable climate, spring-like most of the year. There are no extremes of

heat or cold. Temperatures below freezing are usually of only a few days' duration and there are no summer "heat waves" or drought periods. The average frostless growing season is nearly ten months. The mean maximum temperature in December is 43. The average annual rainfall is about 60 inches, most of which falls between October 1st and April 1st. The mean temperature ranges from 58 to 48 degrees and there are over 300 frost-free days.

Recreational Attractions

The Rich Heritage of Astoria also offers many historic attractions including Fort Astoria, Lightship Columbia, the Columbia River Maritime Museum, Astoria Column, The Flavel House, The Heritage Museum and year-round historically oriented festivals.

The Astoria Warrenton Area Chamber of Commerce serves as a State information center for visitors and others interested in Astoria and Clatsop County. Booklets, maps and other materials area available free to inquirers.

The Chamber office is located at 111 Marine Dr., Astoria, Ore. 97103. Lynn Wallace Executive Director, Merry Cavaya Administrative Assistant-Tourism Services Coordinator. The phone number is 503-325-6311.

SEASIDE

(Courtesy of Chamber of Commerce)

The City of Seaside is located on Clatsop Beach at the Junction of the Necanicum and Neawanna Rivers 79 miles west of Portland via the Sunset Highway. Seaside is the most important beach resort in the Pacific Northwest on the Pacific Ocean and has a permanent population of 5,600 with as high as 50,000 visitors during the summer months. Seaside is the home of the Miss Oregon Pageant which is held in Seaside each summer. The city is served by Raz/Greyhound. From Portland it is little more than 1 1/2 hours' driving time to the resort city officially designated as the "End of the Lewis and Clark Trail".

SEASIDE, was not at any time intended to be a small, rural farming community. From the day of dynamic Ben Holladay's arrival on the scene in 1871, Seaside was destined to become what it is today: "Oregon's leading resort city by the sea"

Ben Holladay, shipping magnate, stage coach operator and railroad builder, bought a large land claim and constructed the Seaside House, a famous hotel for which the city was finally named. Holladay's lavish hotel was surrounded by a stable of fine horses, barns and a race track. Cages of wild animals were on display nearby and tame deer wandered the grounds at will.

A trap in the Necanicum River provided fresh fish each day. A flag flew from a flag staff atop the hotel, to be saluted by the firing of cannons aboard Holladay's steamers as they journeyed up and down the coast. Seaside became known as the "The Coastal Capital of Oregon". The title still stands.

In 1920, Seaside's famed paved Promenade was built. It extends more than 8,000 feet along the city's ocean frontage property. The Prom affords strollers majestic views south to Tillamook Head, east to picturesque Saddle Mountain and west to the blue Pacific.

Driving west on Seaside's Broadway Street, one reaches Seaside's popular ocean-view "Turnaround", a point officially designated as the end of the Lewis and Clark trail. The "Turnaround" is just a few blocks north of the Lewis and Clark salt cairn where, in the winter of 1805-06, men boiled sea water day and night in a successful effort to keep their Fort Clatsop party provided with salt. The salt cairn has been restored at its original site. Many other points of historical significance are located within the city.

For the recreation-minded, the Seaside area offers all an Oregon coastal community can offer, from surfing and clamming to golfing and horseback riding. If you like your fishing nearby, walk a few blocks to the Necanicum River. It flows practically through the center of Seaside, and produces some of the finest salmon and steelhead fishing in the state.

The Seaside Civic and Convention Center was completed in 1972 and has since accommodated thousands of people at conventions and special events with the number growing every year.

The Seaside Chamber of Commerce is located at 7 N. Roosevelt P.O. Box 7, Seaside Ore. 97138. The phone number is 503-738-6391 or Toll free 1-800-444-6740.

☆☆☆

WARRENTON

(Courtesy of Chamber of Commerce)

The City of Warrenton, with a population of 2,510, is located in the northwest section of Clatsop County. The city was incorporated in 1899, and operates under the City Manager plan of government. The Skipanon River, a navigable stream, is used by ocean going vessels for the transportation of lumber and by local fishing fleets. The stream, being located through the industrial district and directly connected to the Columbia, insures a fishing industry and seagoing commerce to all industries requiring it. There is a complete grade and high school system as well as numerous churches.

WARRENTON, in 1899, was named for Daniel Knight Warren who owned 160 acres at the present site of the city. His hired Chinese laborers hand-built a dike two and one-half miles long on the Skipanon River, and soon thereafter Warrenton became the thriving fishing community it remains today.

Warrenton is geographically the largest city in the county and the third largest city in the state. Its unique location and amount of space make its development potential the greatest in the area, with large industrial sites available at the airport and in adjacent lands.

Warrenton has much to offer with Fort Stevens State Park and the largest charter fishing fleet on the Oregon side of the Columbia River. Newly built is a city park with four baseball fields an 4 tennis court and community center. Plans are to continue expanding for bicycle/hiking trails and picnic areas.

The logging industry is represented by Cavenham Forest Products Mill and Nygaard Logging sorting and shipping.

The Astoria Warrenton Area Chamber of Commerce serves as a State information center for visitors and others interested in Astoria and Clatsop County. Booklets, maps and other materials are available free to inquirers.

EMERGENCY INFORMATION

SEVERE THUNDERSTORMS

One of the most common natural hazards is the severe thunderstorm. Watch for the conditions that may accompany this disturbance.

HAIL - Large hail can cause serious injury, so avoid the outdoors while a storm is in progress. Protect gardens and shelter vehicles to prevent costly damage.

LIGHTNING - Lightning kills more people in the United States than any other natural hazard. It may strike some miles from the parent cloud.

- Avoid being the highest object in any area. Stay away from hilltops, lone trees or telephone poles. In a forest, move under a thick growth of small trees.
- Do not enter a small structure in an open area.
- If suitable shelter is not available, seek a ravine or valley, and drop to the ground in a crouched position, hands on knees. Do not lie flat.
- Abandon metal equipment (tractors, golf carts, bicycles). Drop golf clubs and remove golf shoes. Keep several yards away from other people.

FLASH FLOODS - Flash floods often occur without warning following upstream, heavy rainfall. Drainage canals, streambeds, canyons, or areas downstream from a dam are potential flood areas. Monitor current weather conditions and make evacuation plans. Roads and trails that parallel existing drainage systems may be swept away by flood waters. When a flash flood warning is issued, or you realize a flash flood is coming, act quickly to save lives. Seconds count!

- Go to high ground immediately
- Do not drive through already flooded areas. Shallow, swiftly flowing water can sweep a car from the road and disguise a washed out road bed.
- Do not attempt to cross a flowing stream on foot where the water is above your knees.

WINTER STORMS

Severe winter storms with high winds and drifting snow often occur with little warning. Follow these tips:

- Keep posted on weather conditions.
- Prepare for isolation at home.
- Use lights for heat if the furnace goes out. Don't use gas stoves.
- Prevent fire hazards due to overheated wood- or oil-burning stoves, fireplaces, or electric heaters. Fill all liquid fuel heating devices outside buildings.
- Stay indoors. Overexertion such as snow shoveling is a major cause of winter storm deaths.
- Dress in warm layers.
- Travel only if necessary, and then only in daylight on major roads.
- Do not travel alone. Let someone know your schedule and destination.

WHEN CAUGHT IN A VEHICLE:

- Don't leave the vehicle unless help is in sight.
- Ensure proper ventilation while running the engine.
- Signal trouble by raising the hood, tying a cloth on the antenna, or turning on flashers.
- Don't burn anything in the vehicle.

FLOODS

BEFORE A FLOOD

- Know what has occurred on local property during past floods and take appropriate precautions.
- Consult a local licensed insurance agent for the availability of flood insurance through the federally sponsored National Flood Insurance Program. Generally there is a five-day waiting period, so don't wait until a flood is imminent.
- Install check valves in sewer traps to prevent floodwaters from backing up in sewer drains, or buy large corks or stoppers to plug sinks, showers, tubs.
- Obtain sandbags, plastic sheeting, lumber and towels.
- Fuel vehicles in case evacuation becomes necessary.
- Monitor rapidly changing weather conditions.

DURING A FLOOD

If there is time

- Disconnect all electrical and gas appliances. Shut off the water main to keep contaminated water from the water heater (a source of emergency drinking water.)
- Bring outdoor possessions inside.
- Move valuables and essential items to upper floors.
- Sandbags should be stacked well away from the building to avoid damaging walls. If major flooding is expected, flood the basement with clean water to equalize the water pressure on the outside of basement walls and floors. This is to prevent structural damage.
- Round up pets.

Evacuation

- Use travel routes recommended by local authorities.
- Keep a radio on for news and updates.
- Watch for flooding at bridges, viaducts, and low areas.
- Be alert for thunder and lightning that may signify rain and more flooding ahead.
- Don't drive over flooded roads. It's impossible to tell how deep the water is, or if portions of the roadway have been washed out. Vehicles may be swept away.
- Never try to cross flowing water above your knees.
- All passengers should abandon a stalled vehicle immediately and move as a group to higher ground.

AFTER A FLOOD

- Return home only when authorities say it is safe.
- If there is major structural damage or there are utility breaks, have qualified specialists inspect your home and make repairs before you re-enter.
- Be very careful when inspecting your home on your own for the first time. ▪ Use a flashlight, not a torch or lantern. ▪ Check for gas leaks (Use your nose.)
- Wear rubber-soled shoes and rubber gloves in case of severed electrical lines. ▪ Don't turn on electrical switches ▪ Check electrical circuits only when electricity has been shut off. ▪ Don't use flooded electrical appliances until they have been repaired.
- Don't drink municipal water until the health department has declared it safe.
- Don't rush to pump out a flooded basement. If the water is removed all at once, the walls may cave in because of the sudden pressure change. Pump out about a third of the water a day. Mud is easier to shovel while it is still moist.

TORNADOES

Tornadoes may occur without warning and usually accompany a thunderstorm in the afternoon or early evening. Stay tuned to an emergency broadcast station if thunderstorms are predicted.

PREPARATION

- Keep an emergency stock of tools in the safest place to wait out a tornado. These may include a lantern and a crowbar, pick, shovel, hammer, pliers, and screwdriver for digging out of debris.
- Mobile home owners should have a licensed contractor tie the home down.
- Bring portable furniture, equipment, and pets inside on a day when thunderstorms are expected.

IF A TORNADO WARNING IS ISSUED

A tornado warning means conditions are ripe for tornado formation and one has been sighted. When a tornado warning is issued or you hear the roar of a tornado approaching, follow these guidelines.

In a home

- Stay indoors.
- Immediately go to the lowest level in the building, preferably a basement. Seek out an interior hallway or a small interior room away from windows.
- Crouch under a heavy table, desk or bench.
- If there is no protective furniture, crouch and brace yourself against an interior doorway or corner.

In a Mobile Home

Mobile homes can overturn during a tornado. Do not remain in a mobile home. Go to a community shelter.

In a Store or Office Building

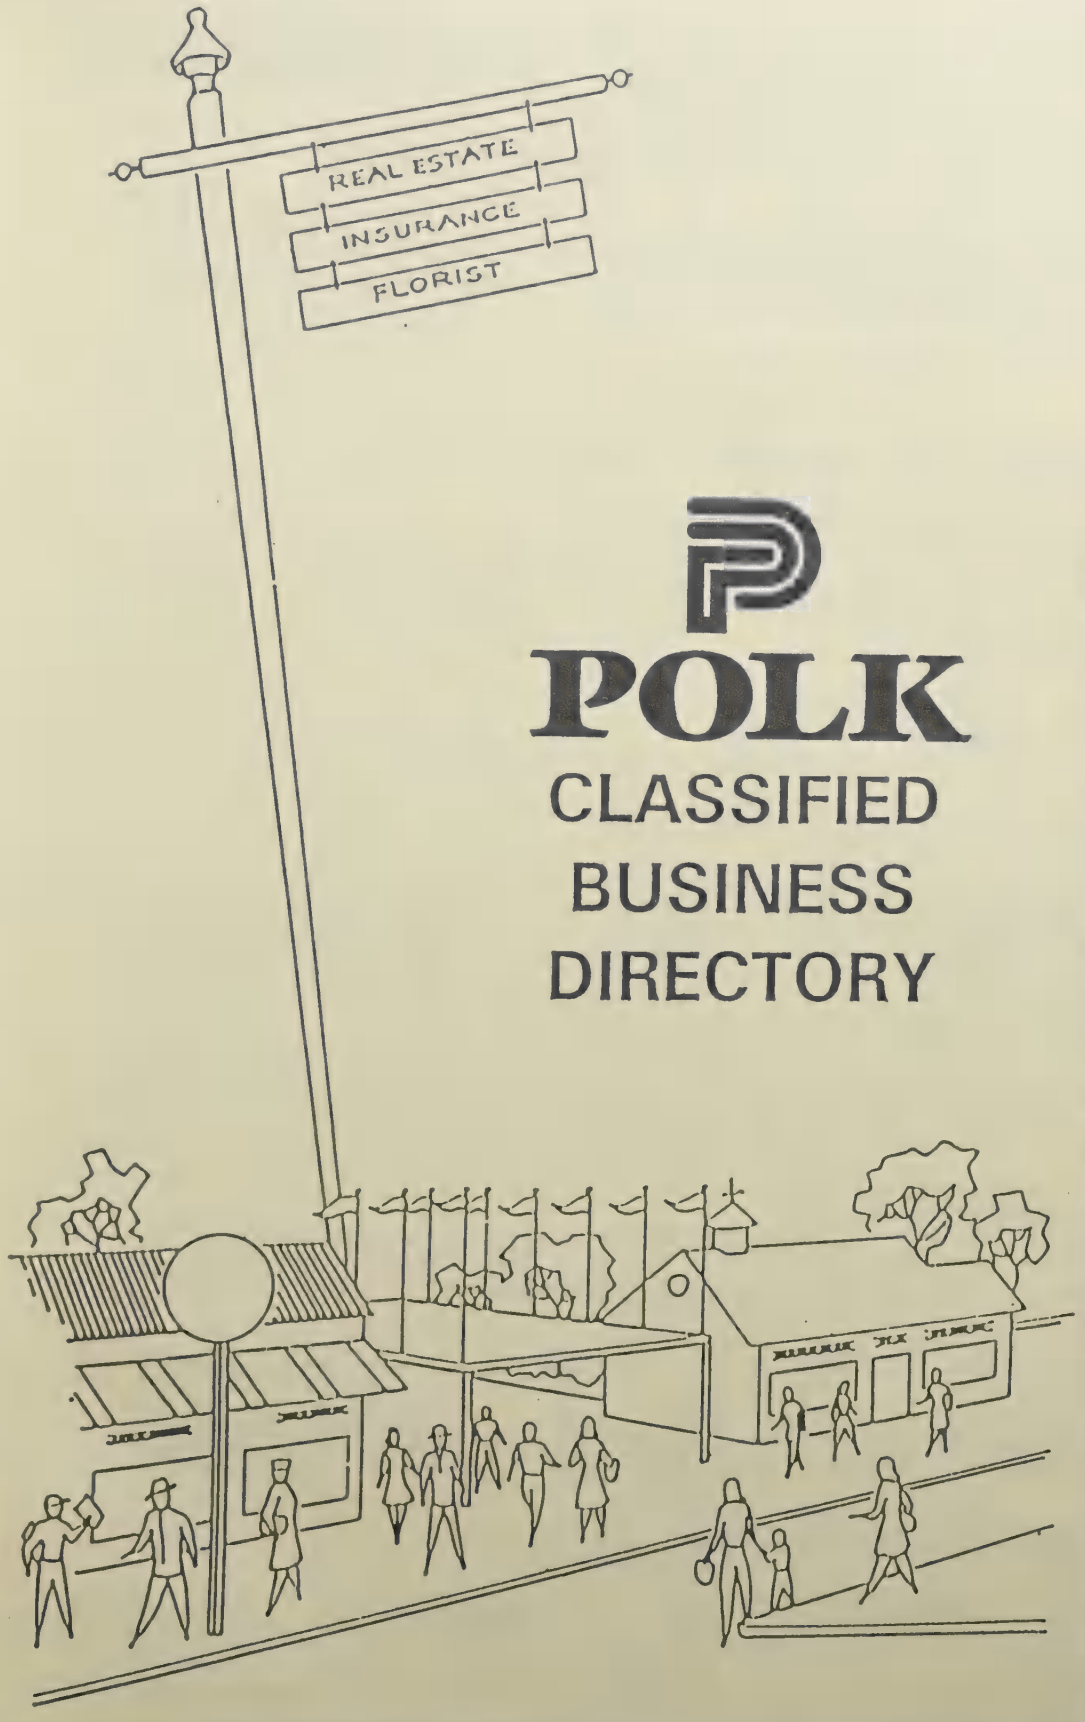

- Don't run for the exit; there may be a stampede. Stay on the same floor. Move away from windows.
- Crouch under a heavy desk, bench, or table.
- Do not use the elevator.

On Foot

- Go inside the nearest sturdy building. If there's no time to enter, crouch next to it.
- If there are no buildings nearby, lie flat in the closest ditch, ravine, or culvert. Cover your head with your hands and arms. Protect yourself from flying debris.

In a Vehicle

- Don't try to outrun a tornado. Leave the vehicle and enter the nearest building, or lie in a ditch, hands covering your head.

A great starting point is the
Polk Directory

IS YOUR BUSINESS ON ICE? CHECK WITH THE
POLK.
YELLOW PAGES

HOW TO MAKE THE YELLOW PAGES WORK FOR YOU

Turn to the page with your listing. Then pick the business that interests you most, sells what you want, or whose location is nearby.

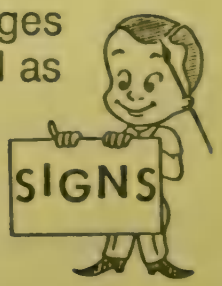

Check out the addresses. Because knowing them can help you plan your shopping trips. And if you already know where a store's located, but don't know the name. . . simply scan the addresses in the listing. You're bound to come accross the place you want.

When you want to find a brand name product or service, look for that brand in the appropriate listing. You'll find a list of dealers who carry the brands you're seeking.

Look for other valuable information. The Polk Yellow Pages tells you who's buying, selling, renting or repairing. As well as important information about that company and its products and services.

When you're looking up any of the hundreds of items in the Polk Yellow Pages, these guidelines will help you find them faster & easier. You'll save gas and time.

USE YOUR STREET ADDRESS DIRECTORY FOR...

*** NEW FEATURES**

The Most Comprehensive List of Occupants By Addresses

- BY NEIGHBORHOOD, AREA, SECTION OF CITY
- BY NEW "MOVE INS" ON EACH STREET
- * BY LENGTH OF RESIDENCE
- BY PROPERTY OWNERSHIP
- * BY MULTIPLE ADULT RESIDENTS
- APARTMENT OR OFFICE BUILDING OCCUPANTS
- ZIP CODES

Neighbors Of Your Present Customers...

Reveals friends, neighbors of present customers
Permits mail, telephone or personal contact of prospects
Identifies home businesses or professions
Identifies prospects not in telephone book or with unlisted telephones
* Indicates long time residents
Reveals new families in your area
* Identifies additional adult residents
Shows renters on each street

Investigations - Collections - "Skip" Tracing

Verifies home ownership and *length of residence of applicants
Lists all occupants of apartments
* Identifies other adult residents for additional leads
Shows telephones of neighbors of "skip" for obtaining new address or information
Shows nearby businesses who may know applicant or "skip"

Deliveries And Service Calls.. AVOIDS DELAYS -- SAVE TIME AND DOLLARS

Verifies addresses
Reveals nonexistent or illegibly written house numbers and streets
Shows location of intersecting streets
Shows apartment numbers and occupants of each apartment
Permits verification of telephone orders and defeats 'prank' calls

Emergency Use... CLOSEST NEIGHBOR...NEAREST PHONE

Especially helpful to law enforcement agencies, public service organizations, members of the medical profession, schools, hospitals and others where immediate contact is frequently necessary to save lives, prevent crime, apprehend criminals, relieve suffering and in many other emergency situations.

POLK
NUMERICAL TELEPHONE DIRECTORY

The Public Information In This Directory Was Voluntarily Given In An Actual Door-To-Door Canvass Or Through Follow-Up Telephone Calls

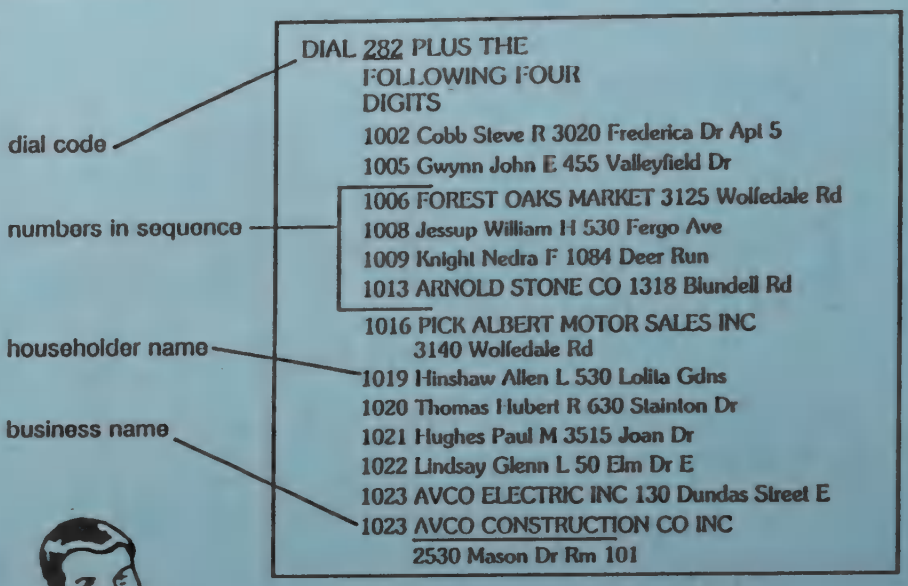

This Directory Is Designed To Assist You In Providing Additional Information When Only A Telephone Number is Available.

POLK.
R. L. POLK & CO.
Directory Publishers Since 1870

NUMERICAL TELEPHONE DIRECTORY
BLUE PAGES

This Directory takes the "mystery" out of blind numbers. It lists telephone numbers in numerical sequence, making it easy to "decode" blind phone numbers in classified ads-especially valuable for real estate agencies, used car dealers, etc.

WHAT'S IN A PHONE NUMBER?

ABOUT THE FIRM:

Whc called me? When your call back message gives a telephone number only-or includes a common surname such as Jones, Smith, Brown, etc.-this Numerical Telephone Directory will assist in determining correct firm name and address. Make use of both Alphabetical and Street Guide information to establish names of officers, owners or partners, products and services. Properly identify firm and caller and have needed records, file or correspondence on hand before returning call.

ABOUT THE INDIVIDUAL:

Who called me? When only a telephone number is known, this Numerical Telephone Directory will assist in determining the full name and address of the subscriber-with this information combined with other sections of your City Directory, you may quickly establish such information, as wife's name, place of employment, job title, business address and business telephone number.
